Message

The prisons and correctional services are an important Component of criminal justice system. These play a very important role in Reform and rehabilitation of the Inmates, resulting in prevention of crime and creating harmony in society. Therefore, a complete study and the understanding of the Prison statistics has important role in the planning of strategies to improve the Prison administration and criminal justice system.

The compiled data of the Inmates are valuable to the social scientists, prison institutions and to the administrators to identify the grey areas of the correctional administration and to formulate future strategies. With this purpose in mind, the data of the Uttar Pradesh prisons is presented in a tabular form. This is the second publication. The first publication is started in 2007. Despite our best efforts certain short comings of form or content may be there. We would be grateful for suggestions to improve this publication. We shall endeavour to publish prison statistics, regular every year in future. We hope that the policy makers, researchers and the social workers will certainly find it useful.

I appreciate to Research Officer, Shri K.B.Joshi, Statistical Assistant, Syed Naseem Ahmad and all assistants of Research, Training & Administrative Reform Section of Jail Head Quarter, who have to prepare this second addition of Prison Statistics U.P. -2008.
